

Tombstone MOA - Preliminary Alternatives

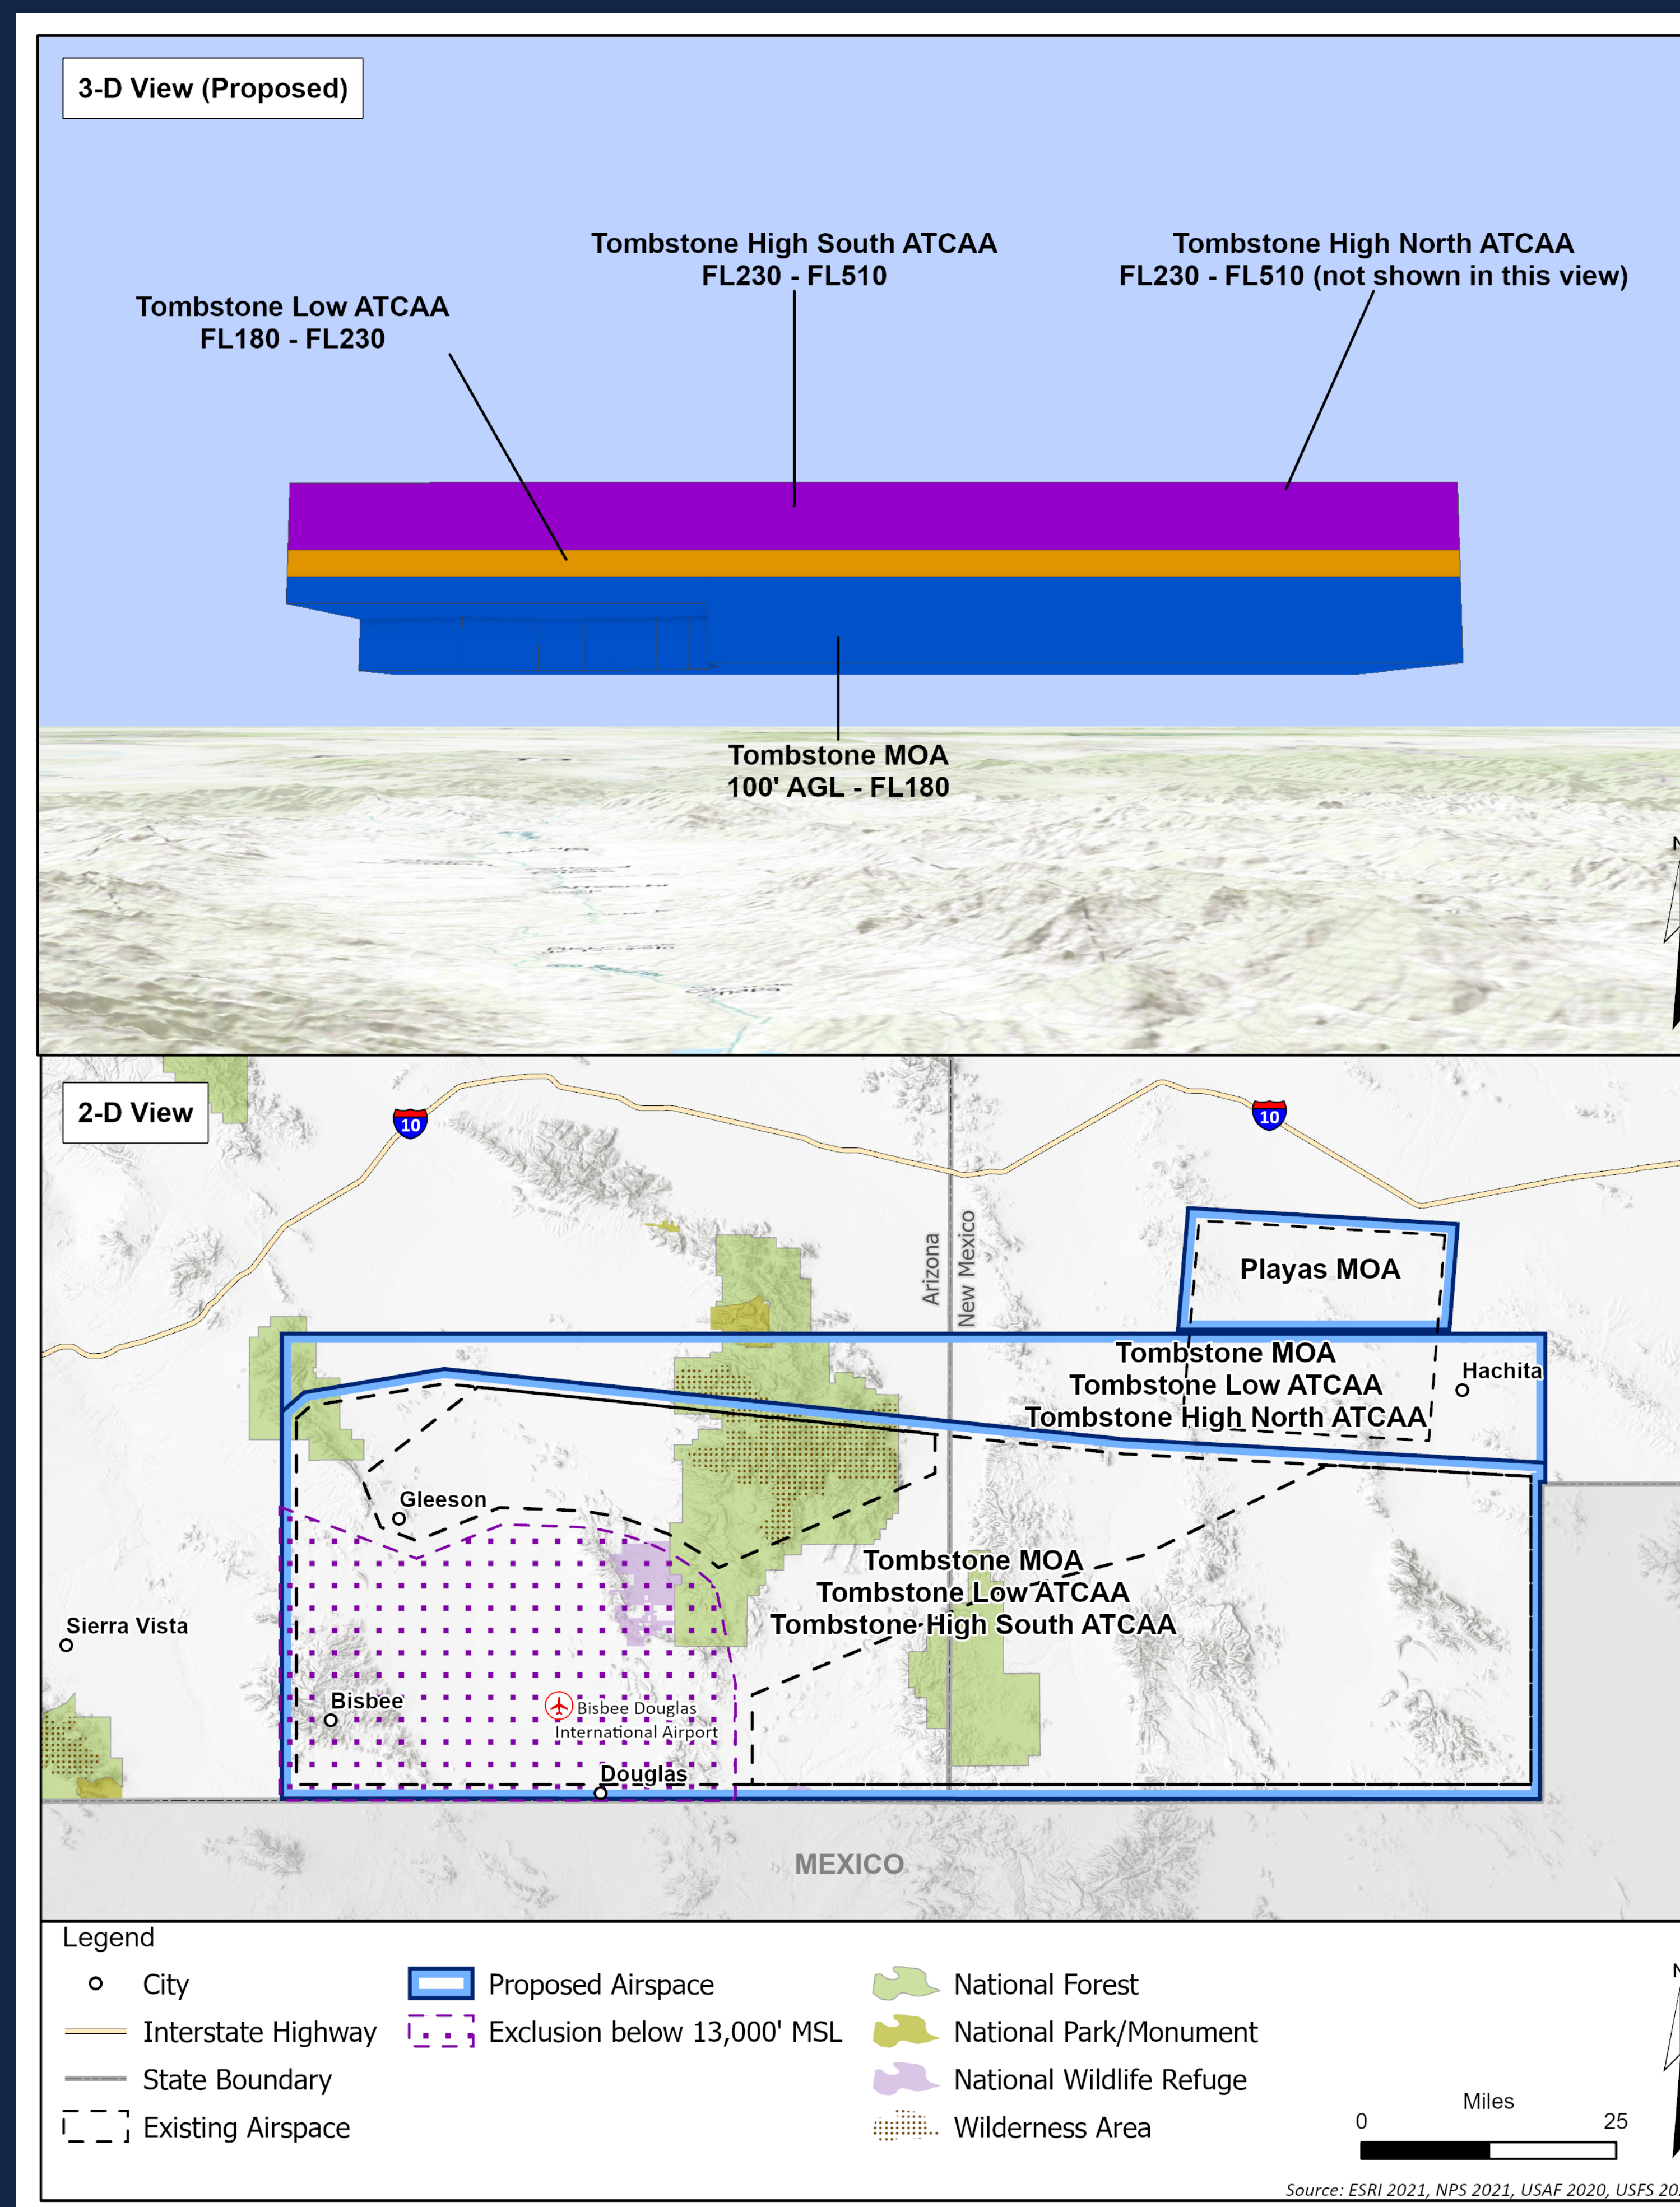

Alternative 1: No Action (Existing Use)

Currently, the MOA is used as follows:

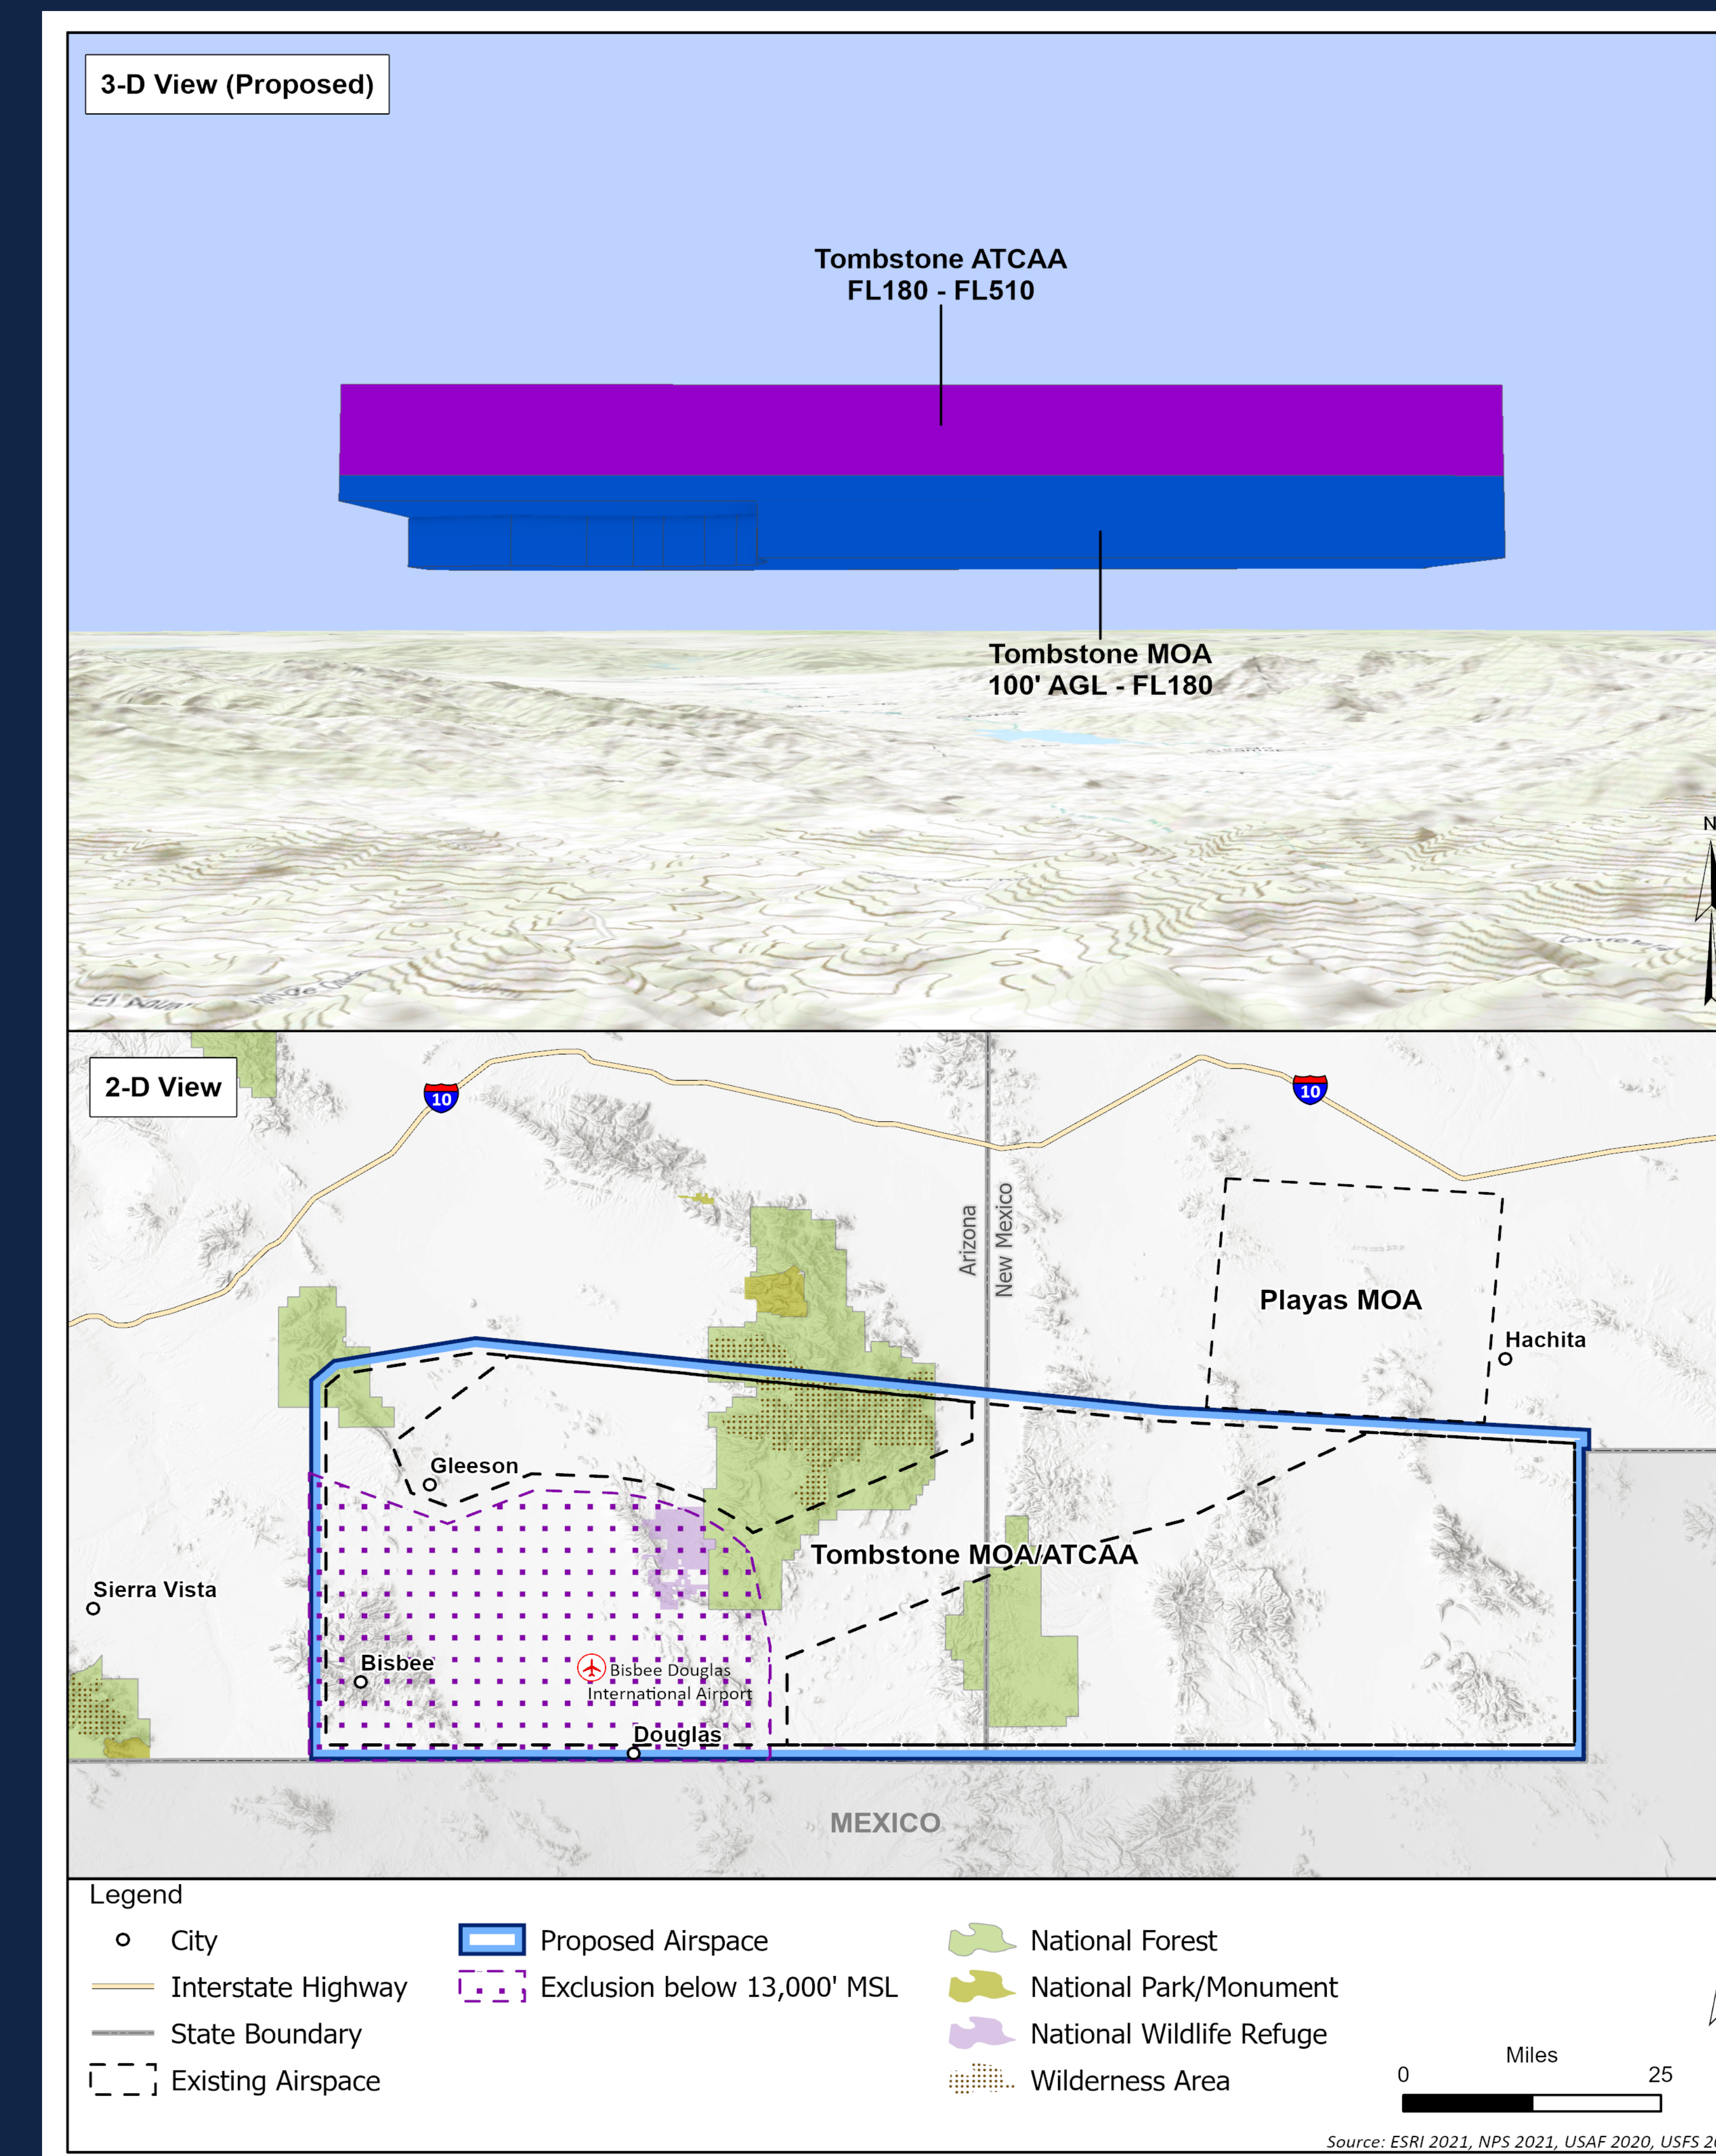

- Times of use: 0600 – 2100 Monday through Friday; other times by Notice to Airmen (NOTAM)
- Supersonic authorized above 30,000 feet MSL
- Flares authorized above 5,000 feet AGL
- No chaff authorized

Alternative 2

- Proposed times of use: 0600- 2100 Daily; other times by NOTAM.
- Expand northern boundary
- Combine A, B, C and lower floor to 100 feet AGL
- Establish exclusion below 13,000 feet MSL for Bisbee Douglas International Airport :
 - Authorize supersonic above 5,000 feet AGL
 - Authorize flares above 2,000 feet AGL instead of 5,000 feet AGL.
 - Authorize chaff

Alternative 3

- Same as Alternative 2, except no northern expansion

Alternative 4

- Same as Alternative 2, except authorize supersonic above 10,000 feet AGL instead of 5,000 feet AGL.
